

Regarding the Indiana Do Not Call List:

It ain't broke. Don't try to fix it.

Leave it alone. This is the GREATEST single improvement in our household environment since I was born in 1950. Previously we received 20-30 annoying junk phone calls per week. Now we receive virtually none.

This is the BEST thing an Indiana Attorney General has ever done for the citizens of this state. Don't take it away from us. Superceding the Indiana law with a Federal law is NOT in the best interests of Indiana residents. It would only benefit big business, by whom we are already overrun and trodden upon.

Respectfully submitted,
